RICHARD BLANCO
Poet, Memoirist, Essayist

He first stepped onto the national stage on Jan. 21, 2013, when he recited “One Today,” the powerful poem he wrote for President Barack Obama’s second inauguration that offered the nation messages of hope and unity.

Chosen by President Obama as the nation’s fifth inaugural poet, Richard Blanco, the son of Cuban exiles, was the youngest and the first Latino, the first immigrant, and the first openly gay person to serve in that role.

As Obama said in announcing his selection, “Blanco’s contributions to the fields of poetry and the arts have already paved the path forward for future generations of writers. Richard’s writing will be wonderfully fitting for an inaugural that will celebrate the strength of the American people and our nation’s great diversity.”

For his impressive body of work; his contributions to the understanding of cultural identity, community, and belonging; and his prodigious efforts to bring the magic of poetry and storytelling to diverse audiences, Richard Blanco is receiving a Doctor of Humane Letters, honoris causa.

An outspoken activist for diversity, LGBTQ rights, immigration, arts education, and other sociopolitical issues, Blanco has long explored the boundaries of race, gender, class, and ethnicity that divide society—explorations prompted by his search for unity and answers about his cultural identity and personal history.

As he likes to say, he was “made in Cuba, assembled in Spain, and imported to the U.S.” That’s because his mother was seven months pregnant with him when she and his family left Cuba for Madrid, where he was born. A mere 45 days later, they immigrated once more to New York City, eventually settling in Miami, where Blanco grew up and, earning an engineering degree from Florida International University (FIU) in 1991, embarked on a career as a civil engineer.

But in 1997, he returned to his alma mater for his Master of Fine Arts in creative writing, and the following year published his first book of poetry, “City of a Hundred Fires,” to critical acclaim. Winner of the Agnes Lynch Starrett Poetry Prize from the University of Pittsburgh Press, the book explored his cultural yearnings and contradictions as a Cuban-American, and the emotions of his transformational first trip to Cuba, his figurative homeland.

From that collection, the poem “America” illuminated the differences between his life as a son of exiles in Miami and the larger world:

We didn’t live in a two-story house with a maid or a wood-panel station wagon nor vacation camping in Colorado.
None of the girls had hair of gold; none of my brothers or cousins were named Greg, Peter, or Marcia; we were not the Brady Bunch.
None of the black and white characters on Donna Reed or on the Dick Van Dyke Show were named Guadalupe, Lázaro, or Mercedes.
Patty Duke’s family wasn’t like us either—they didn’t have pork on Thanksgiving, they ate turkey with cranberry sauce; they didn’t have yuca, they had yams like the ditos of Pilgrims I colored in class.

After the success of his first book, Blanco took a hiatus from engineering and began teaching, a career that took him to, among others, American, Georgetown, and Wesleyan universities, and back to FIU, where he continues to teach poetry today. Driven by a desire to examine the essence of place and belonging, he also began traveling. Poems related to those journeys became his second book, “Directions to The Beach of the Dead” (2005), which received the Beyond Margins Award from the PEN American Center.

In 2004 Blanco returned to Miami and, resuming his engineering career by day, designed several town revitalization projects. But as a poet by night, he began working on another collection before moving to Maine, where seeking the peace and tranquility of nature, he completed his third book of poetry, “Looking for The Gulf Motel” (2012). Winner of the Paterson Poetry Prize, the Maine Literary Award for Poetry, and the Thom Gunn Award, the collection chronicled Blanco’s complex navigation through his cultural, sexual, and artistic identities.

Since Obama’s second inauguration, Blanco has been named a Woodrow Wilson Visiting Fellow, written poems to help the nation heal from tragedy and celebrate milestones, and published his poignant and delightful memoir, “The Prince of Los Cocuyos: A Miami Childhood” (2014), which received the Maine Literary Award for Memoir and the Lambda Literary Award for Gay Memoir in 2015. That same year, the Academy of American Poets named Blanco its first education ambassador. In that role, he writes lesson plans for the academy, visits students, and conducts workshops for educators on innovative ways to teach poetry.

He also completed his latest collection of poems, “How to Love a Country” (2019), which addresses the complexities and contradictions of our nation’s unresolved sociopolitical issues while celebrating its ideals and hope for an inclusive future where everyone has a sense of belonging.

For his uniquely intimate, eloquent, and accessible voice that connects communities, advances social causes, and promotes unity and understanding, the University of Miami is proud to honor Richard Blanco.

The Great Seal of the University of Miami symbolizes exceptional scholarship, a limitless quest for knowledge, and an abiding commitment to service shared by University faculty, staff, and students. The Great Seal includes a stylized sun and palm tree, as well as a shield with the traditional symbols of education—a key, a book, and a torch. The key signifies the unlocking, discovery, or re-evaluation of learning and knowledge; the book holds the Latin words for discovery, preservation, and dissemination of knowledge; and the torch symbolizes the spread and dissemination of learning. Below the shield is the University’s Latin motto, from the Book of Esdras, *Magna Est Veritas*: Great Is Truth.
The Mace

The academic mace, an enduring symbol of institutional authority and prestige, is a vestige from prehistoric times. First used as a battle weapon, the mace evolved into a ceremonial staff carried in processions of royalty, magistrates, and church or university officials.

The University of Miami's current mace, which dates back to 1986, was sculpted by former UM Professor of Art William Ward. He chose a contemporary design, one that reflects the University’s timelessness and perpetual growth from a young institution to one of national prominence. The clean lines and polished silver surface are elegant, dignified, and reflective of colors, textures, and forms in the ever-changing environment. Ward indicated that timelessness is further represented by the mace’s geometric design. Rather than employing symbols like books, candles, or globes, he noted that “these geometric shapes are not tied to fad or style but are an integral part of our world. There are obvious relationships to mathematics and the sciences, and as the mace is rotated, some of the planes at the top resemble letters. Its complexity is like the unfolding plot of a good story.”

The University of Miami’s current mace serves as a symbolic weapon to protect the ideals of truth, justice, and learning. During the commencement ceremony, it is carried at the head of the academic procession by the Grand Marshal, whose symbolic duty is the protection of the University, its people, and its processes.

The University of Miami Presidential Chair

The University of Miami Presidential Chair, or cathedra, takes its place on the commencement stage as a new symbol of the Office of the President. Traditionally representing the seat of learning, the cathedra was designed and crafted by master furniture maker Austin Matheson, an adjunct professor in the School of Architecture whose family history in South Florida predates the University’s 1925 founding.

Matheson carved and joined what appear to be the seamless pieces of the chair from a single slab of highly prized and once-abundant Cuban mahogany wood. It was salvaged from a tree felled by a hurricane in nearby Coconut Grove. The fluidity of his design represents the idea that “We Are One U,” while his use of a contemporary style and a few traditional flourishes represent the University’s rich past and promising future. “The chair is unique. It has no precedent. It stands alone,” Matheson said.

Etched by laser, the Great Seal of the University of Miami is prominently displayed on the splat, or back, of the chair. More subtly, twin silhouettes of an ibis head, with its graceful beak, adorn each side of the crest rail. Known for its invincible spirit when hurricanes approach, the marsh bird has been the school mascot since the University opened its doors, just a month after the hurricane of 1926 devastated Miami. Like the chair, the ibis continues to be a symbol of our resilience and renewal as we approach our new century.

The Invocation

Spirituality is an important part of many students’ lives and is a traditional element of the commencement exercises. Following the processions and national anthem, each commencement ceremony opens with an invocation offered by a member of the University of Miami Chaplains Association who represents one of the three major faiths, Christianity, Judaism, or Islam. The invocation is meant to celebrate the accomplishments of our students and encourage them to lead lives that embody the virtues that their education has instilled.
The ceremonies of commencement immerse us in the rich tradition of academic honors and dress that reaches back to the early days of the world’s oldest universities.

The University of Miami awards degrees in three basic divisions—the doctorate, master’s, and baccalaureate—which can be traced to medieval times. The student receiving a “first degree in arts” was crowned with a wreath of laurel berries, hence “baccalaureate” and “bachelor.” The master’s degree was a license to teach (Licentia docendi), so the “master” was an appropriate title. The student was even better qualified to teach, for this degree required advanced study, independent research, and defense of a “thesis.” These standards still apply to the doctorate, except for those conferred *honoris causa* (as honorary degrees) for meritorious service in public or private endeavor.

Some degrees are awarded with special recognition. For those who have achieved appropriate standards in their work, the words *cum laude* (with praise), *magna cum laude* (with high praise), and *summa cum laude* (with highest praise) are used. Students who have met formal scholarly demands, including both specified courses and high overall grade averages, may graduate with “General Honors.” These achievements are recorded on diplomas and in official transcripts.

From medieval practice, academic dress has three items: cap, gown, and hood. In reviving the use of these items for the United States, an intercollegiate commission in 1895 drafted a code that most universities, including the University of Miami, follow.

For all degrees, the mortarboard is the traditional cap. The tassel may be gold for a doctor or may indicate the field of study.

The bachelor’s gown is black with long, pointed, open sleeves. The master’s gown is black with a long, closed sleeve hanging below the elbow. The doctor’s gown is black and is distinguished by three bars of velvet on a full sleeve.

The academic hood is the identifying symbol of the degree. Its length indicates which degree it represents: three feet for the baccalaureate, three-and-a-half for the master’s, and four for the doctorate. The lining indicates the college or university that awarded the degree. University of Miami hoods are lined in orange, green, and white. The color of the velvet band represents the academic discipline. The most frequently seen colors are white for arts, yellow for science, pink for music, sapphire blue for philosophy, purple for law, scarlet for divinity, green for medicine, light blue for education, drab for business, orange for engineering, violet for architecture, gray for general studies, and apricot for nursing.

President Julio Frenk wears a black robe with four black velvet bars. The fourth chevron indicates this is the presidential regalia. The gown features orange and green piping as well as a doctoral hood lined in orange, green and white—reflecting the official University of Miami school colors.
The Music of the Ceremony

University of Miami Fanfare

Great universities throughout the country begin their halftime performances with a special fanfare consisting of small portions of their school fight songs and alma mater. The fanfare signals the start of halftime festivities, exciting the crowd and encouraging loyal fans to remain in their seats during the band’s performance. Following the Miami Hurricane’s National Championship season in 2001-2002, David Lambert, D.M.A. ’05, wrote a similar fanfare for the University of Miami. “UM Fanfare” was premiered by the University of Miami Band of the Hour during the 2004 Miami Hurricane home football opener versus Florida State University. It has since been performed as a prelude to all Band of the Hour performances and has become a part of the University of Miami’s commencement to announce the opening of the ceremony.

President’s Processional Fanfare

Commencement ceremonies are rich in history, tradition, and ritual. Over the years, the University of Miami has had a number of talented musicians and composers contribute to that history and tradition. The “President’s Processional Fanfare – Toward Our New Century” was commissioned by the Phillip and Patricia Frost School of Music for the inauguration of the University of Miami’s sixth president, Julio Frenk. Written by Brian Balmages, M.M. ’00, the fanfare premiered on January 29, 2016, at President Frenk’s inauguration ceremony.

The Music of Henry Fillmore

Henry Fillmore, the American composer and bandleader best known for his marches, was an ardent supporter, friend, and benefactor of the University of Miami band. After retiring to Miami, he quickly adopted the Band of the Hour at the University of Miami as his own. As a result, he was named “permanent guest conductor” of the band, and in appreciation of his dedication, the University awarded Fillmore an honorary doctorate in music. Fillmore’s prominence as a band composer and his tireless dedication to the field of music remain his legacy. Benefiting most from his musical passion and artistry was the University of Miami band, to which he bequeathed most of his estate. The Henry Fillmore Band Hall, dedicated in 1959 along with the Fillmore Museum, is a symbol of that legacy.

The recessional music today is but a small part of his life’s work. Each selection has a unique relationship to Miami and the University. “The Miami March” was dedicated to the community of Greater Miami, which enthusiastically supported Fillmore and his music.
Southern suns and sky blue water
Smile upon you Alma Mater
Mistress of this fruitful land
With all knowledge at your hand
Always just, to honor true
All our love we pledge to you
Alma Mater
Stand forever
On Biscayne’s wondrous shore.
